PUBLIC SERVICE
COMMISSION

Case No. 92-065

Dear Sirs:

This letter is in response to the information supplied to us by Jeffrey J. Yost, attorney for Central Ky. Cellular Telephone Co., regarding their application for a Certificate of Public Convenience and Necessity.

We will voice our objection until the following questions are answered:

- 1) Would high volume use of radio/micro waves be health hazardous?
- 2) Would the apperance of the tower decrease the value of our property?
- 3) Would radio/micro waves effect electronic equipment?

Please contact me in the near future with further information regarding this matter.

Sincerely,

Stanley Osa
President, Intersteel, Inc.
